Session 132: You can create your own reality

Original Question: Help us to understand how a spirit is rescued.

Summary:
You experienced a manifestation of those energies that exist in thought forms. That which is real is what gets your attention. You are many energies. We call ourselves We. One has an aspect which is a lost soul, and one has an aspect that is a savior. If you direct your consciousness, then it exists.If you believe in Karma, then the supposed law would allow for an aspect to be saved and to have a savior.
